Professional experience

Dates	Organization details	Roles	Area of expertise
-------	-------------------------	-------	----------------------

01/01/2018 - 03/23/2022		Position held Project Manager & Data Analyst	Administration, Information technology
		Type of employment / Engagement Employment (full-time)	
	Employer / Organization BAHADURPUR BOITORONI WELFARE TRUST	Description of major activities As Project Manager, and Data Analyst at Bahadurpur Boitoroni Welfare Trust, my primary responsibilities included: Leadership & Governance: Oversaw the strategic planning and execution of the organization's welfare programs, ensuring alignment with our mission to uplift underprivileged communities. Project Management: Managed and coordinated various community development projects, including healthcare camps, educational initiatives, and rural development programs. Ensured timely delivery and effective resource utilization. Data Analysis & Reporting: Analyzed data related to our projects to monitor progress, assess impact, and guide decision-making. This included statistical analysis, trend identification, and reporting to stakeholders. Fundraising & Financial Management: Played a key role in fundraising activities, grant writing, and managing donor relations. Ensured transparency and accountability in the financial management of donations and grants. Community Engagement: Actively engaged with community members to understand their needs, foster relationships, and encourage participation in the Trust's initiatives. Capacity Building: Organized training programs and workshops for staff and volunteers to enhance their skills and knowledge, thereby improving the effectiveness of our operations.
